

Current Geometry PoW

The Math Forum's PoWs provide non-routine constructed response problems. The Geometry problems target concepts typically learned in a high school geometry class. Memberships and mentoring options are available at the individual, class, school, and district levels.

Regional Ratios - posted April 13, 2009

A regular hexagon and an equilateral triangle have the same perimeter. What's the ratio of their areas?

Extra: Find another way to solve it.
